FT Ultra Dock Light

The FT Ultra Dock Light from APS Resource has been designed to withstand impact at the dock without damage to the light or the truck. The flexible arm simply moves the lamp out of the way upon impact and allows easy repositioning. Extra long 39" reach allows user to aim light at the optimal spot to illuminate the truck and facilitate loading or unloading. Bright, energy-saving, 60-watt, quartz-halogen bulb improves safety. High visibility, yellow control box has pre-drilled mounting holes for easy installation and convenient 115-volt outlet for powering other dock accessories or tools.

The New FT Ultra Dock Light Features:

- Durable stainless steel construction withstands impact
- Flexible arm for precise positioning
- Brighter light for improved safety
- 39" arm for longer reach
- Pre-drilled holes for easy mounting
- Control box with on/off switch and convenient power outlet
- Wire lamp guard standard
- UL listed
- Optional food and pharmaceutical grade lens available
- Optional 6" spacer available

39" - long flexible arm
